

Responsible Conduct of Research Training Certification

The National Science Foundation (NSF) requires that all undergraduate, graduate, and post-doctoral students involved with a NSF-sponsored research project complete the Responsible Conduct of Research training.

The National Institutes of Health (NIH) requires all trainees, fellows, participants, and scholars receiving support through the programs listed below, must receive instruction in Responsible Conduct of Research. D43, D71, F05, F30, F31, F32, F33, F34, F37, F38, K01, K02, K05, K07, K08, K12, K18, K22, K23, K24, K25, K26, K30, K99/R00, KL1, KL2, R25, R36, T15, T32, T34, T35, T36, T37, T90/R90, TL1, TU2, and U2R.

If you have individuals on your sponsored study, check that option and fill out the information below about your study and return this signed form to the Office of Research & Sponsored Projects along with documentation of training and/or participation.

Yes. I do have individuals involved in my NSF NIH (circle one) sponsored research study.

No. I do not have any individuals involved in my NSF NIH (circle one) sponsored research study.

Provide the information below:

PI Name: _____

Study Title: _____

NSF/NIH Award Number: _____

UWG Account Number: _____
(20000-xxxxxxx-xxxxx-xxxxx-xxx_54)

PI Department: _____

Names of students, trainees, _____
fellows, participants, and _____
scholars. _____

I certify that the individuals funded by this NSF/NIH study have completed the required RCR training and the appropriate documentation is attached.

Signature of PI

Date
